The product information in this catalog is for reference only. Please request the Engineering Drawing for the most current and accurate design information. All non-RoHS products have been discontinued, or will be discontinued soon. Please check the products status on the Hirose website RoHS search at www.hirose-connectors.com, or contact your Hirose sales representative.

2.5mm Pitch Connector for Discrete Wire Connection (Product Compliant with UL/CSA Standard)

DF1B Series

Features

1. New Insulation Displacement and Crimping Ideas

This connector is a new type to insert the ID contacts in the case. Using this method, the following merits can be gained.

- 1 By using the ID contact and crimping contact together, different current capacity cables can be mixed in one case.
- 2 After connection, the contact can be replaced in excellent maintainability.
- ③ Because the insulation displacement area is protected by the case, high reliability can be assured.
- ④ Since the insulation displacement process can be performed only by replacing the applicator of the existing crimping machine, no expensive machine for insulation displacement is required.
- 2. Potting Header Available

The high profile header is also available, corresponding to the board potting process (sealed with resin) as waterproof measures.

3. Broad Variations

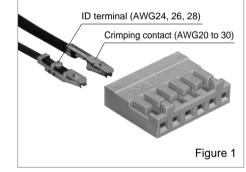

The single row and double row contacts are aligned for "Board to Cable" and "In-line" series, respectively, while standard tin and gold plating products are available.

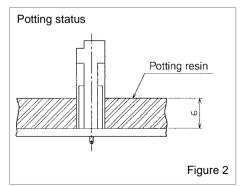

(Refer to the applicable combination pattern on next page.)

Applications

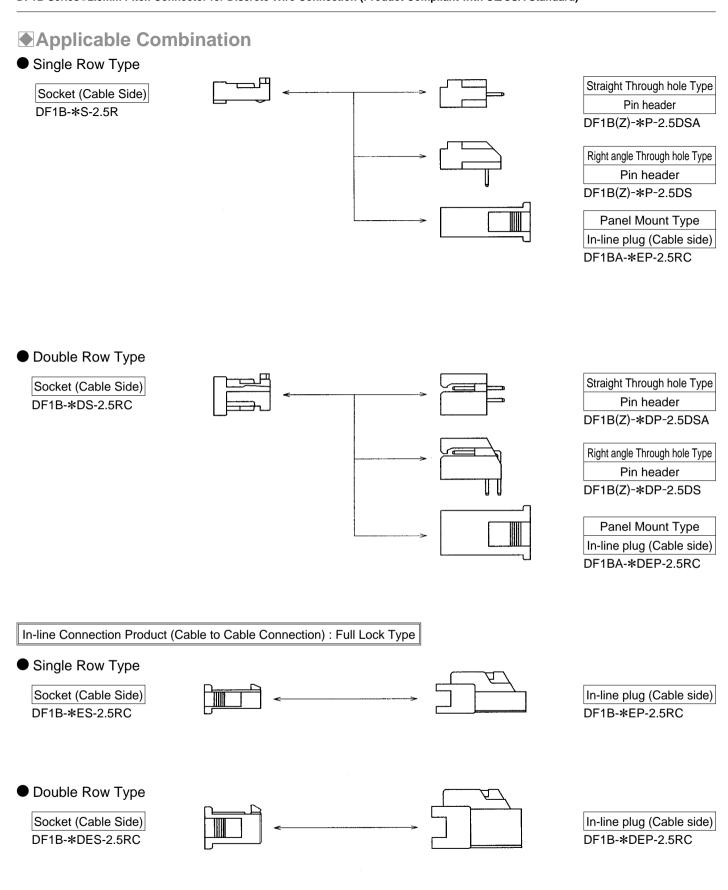

Business equipment, particularly including the copy machine and printer

Cables with different current capacities can be mixed in one case

The product information in this catalog is for reference only. Please request the Engineering Drawing for the most current and accurate design information. All non-Rohomatices and the second second

UL CSA Safety File No. UL : E52653 CSA : LR95109

| Item | Specification | Condition |
|---------------------------------|---|---|
| 1. Insulation Resistance | 1000M ohms Min | 500V DC |
| 2. Withstanding voltage | No flashover or insulation breakdown. | 650V AC/1 minute |
| 3. Contact Resistance | 30m ohms Max | 100mA |
| 4. Insertor/Extraction Force | MIN0.44N (45gf), MAX4.4N(450gf) | Measure at the square steel pin of 0.635 ± 0.002 mm |
| 5. Vibration | No electrical discontinuity of 1μ s or more | Frequency: 10 to 55 Hz, single amplitude of 0.75 mm, 2 hours in each of the 3 directions. |
| 6. Humidity (Steady state) | Contact resistance: 30m ohms max.Insulation resistance: 1000M ohms min. | 96 hours at temperature of $40{\pm}2^\circ\!C$ and humidity of 90% to 95% |
| 7 Temperature Ovela | Contact resistance: 30m ohms max:Insulation resistance: 1000M ohms min. | (-55 °C: 30 minutes → 5 to 35 °C: 10 minutes |
| 7. Temperature Cycle | | 85°C: 30 minutes → 5 to 35°C: 10 minutes) 5 cycles |
| 9. Operating Life | Contact resistance: 30m ohms max. | Tin plating : 30 cycles |
| 8. Operating Life | Contact resistance. Som onnis max. | Gold plating : 50 cycles |
| O Registered to Soldering heat | No deformation of companyons officiating parformance | Flow: 250°C for 10 seconds |
| 9. Resistance to Soldering heat | No deformation of components affecting performance. | Manual soldering: 300°C for 3 seconds |

Note 1: Current rating of header is 3A.

Note 2: Includes temperature rise caused by current flow.

Note 3: The term "storage" refers to products stored for long period of time prior to mounting and use. Operating Temperature Range and Humidity range covers non conducting condition of installed connectors in storage, shipment or during transportation.

Note 4: Information contained in this catalog represents general requirements for this Series. Contact us for the drawings and specifications for a specific part number shown.

Precautions

| 1. Recommended Soldering Condition | Flow: 250°C for 10 seconds |
|------------------------------------|--|
| | Manual soldering: 300°C for 3 seconds |
| 2. Cleaning Condition | Refer to Nylon Connector Use Hand book. |
| 3. Connection Condition | Refer to Nylon Connector Use Hand book. |
| 4. Cautions | The color phase of this product is slightly different from that of the formed product according to |
| | the manufacturing lot and future storage conditions, but the difference doesn't affect the |
| | performance. |
| 5. Precation | Refer to Nylon Connector Use Hand book. |
